**IDLERS | PULLEYS | IMPACT BEDS | ACCESSORIES**

## **ABOUT**

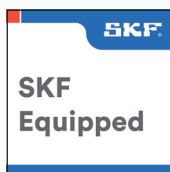

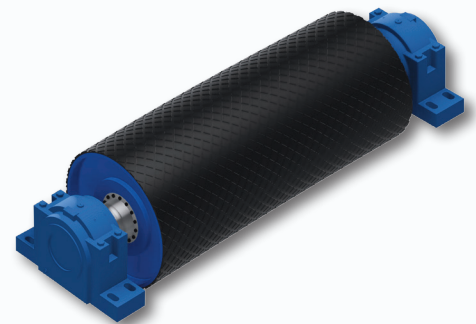

Luff Industries Ltd. manufactures quality conveyor components, including idlers with patented polymer endcaps, to an international market. Using Luff components, companies have been increasing the performance of their conveyor systems since 1979.

Recognized for innovative products, quick turn around times and exceptional product, Luff conveyor components are found in a variety of heavy industrial material handling applications. These industries include: Aggregate, Mining, Forestry, OEMs, Construction, Gypsum, Recycling, Shiploading, and Belt Wall Systems.

## **FACILITIES**

With increased growth and continued demand for product, Luff Industries has expanded its facilities, which now include over 66,000 sq. ft of manufacturing space. As well as two branches in Ontario, Canada and Nashville, Tennessee. With the addition of robotic welders and large scale CNC units, Luff Industries builds and provides product ranging from CEMA B to CEMA F specifications. Mine-duty pulleys, with industry-leading rim thickness, are also designed and manufactured on-site to meet customer requirements.

## **QUALITY. SERVICE. DEPENDABILITY.**

Luff's business is built on the foundation of quality product and exceptional service. With a full team of professionals ready to support customers with all their needs, Luff offers an industry-leading manufacturing lead time of just 5 days. An in-house design team is ready to assist with any modifications or design requirements.

All Luff idlers and pulleys pass through a rigid ISO 9001 quality inspection, before becoming a key component in your conveyor system. Luff backs this with a 2-year warranty on all manufactured product.
