

CLEAN WEAVE

***After running this roll you can confidently say
“Weaved cleaned” your belt.***

The Clean Weave Return Roll consists of polyurethane discs that provide exceptional resistance to abrasion and a wear lifespan at least five times greater than that of steel or rubber rolls.

- Crafted with 90 durometer discs featuring a self-cleaning spiral surface to prevent the accumulation of material between the discs or on the belt.
 - This specially designed material exhibits exceptional resistance to rust and corrosion.
-
- The spiral configuration employs an augering action to effectively clean the underside of the conveyor belt.
 - The spiral design guarantees that the roll discs consistently make contact with the belt in fresh areas, enhancing the cleaning performance.
