

Easy Change Cradle

One-Person Operation: Perfectly designed for a single-person operation, streamlining maintenance tasks with minimal manpower.

Built-In Belt Lifting Bar: Integrated belt lifting system eliminates the need to work beneath the conveyor. No complex tools required and significantly reduces risk and enhances operator safety.

Dual-Purpose Guarding System: Functions as a return roller protector with a basket-style guard for added safety during operation and maintenance.

Fast, Hassle Free Maintenance: Rollers can be replaced in just 60 seconds, including removal of existing return roller, minimizing downtime and maximizing productivity.

Quick Installation: Initial installation averages just 30 minutes, including removal of existing return roll; get back up and running fast.

- » CEMA B-C-D-E
- » 4-5-6-7 inch diameter rolls
- » 18" - 72" belt width
- » 4.5" and 7" drop only
