

## Locking Clips

**Luff's Locking Clips are designed for quick installation and easy maintenance across all Luff Idler Assemblies**

**Quick and Easy Installation:** Fits Luff CEMA A, B, C and D Idler Assemblies and reduces downtime during roller maintenance.

**Durable and Reusable:** Designed to be reused multiple times, as it will not break under normal use.

**Easy Roller Removal:** Simplifies roller changes; no complicated disassembly required.

**No Tools Needed (Middle Bracket):** Middle bracket plug removes easily by hand.

**Secure Shaft Locking:** Special plug design locks shaft firmly into the middle bracket.

**Heavy-Duty End Clip Attachment:** Fastened with Hex Head Thread Forming Screw (5/16" NC x 3/4" long).
