

Safety Net

Durable HDPE Construction: Made from high-density polyethylene (HDPE) for a strong, non-conductive barrier that resists wear and impact.

Customizable Fit: Easily cut into any size or shape to suit a wide variety of conveyor systems and machine configurations.

High-Visibility Safety Yellow: Bright yellow color provides clear visibility of hazardous areas, promoting greater on-site safety awareness.

UV & Heat Resistant: UV-resistant panels maintain their structural integrity and color stability at temperatures up to 100°C.

Food Grade Material: HDPE composition meets food safety standards, making it suitable for use in food processing facilities.

Complete Installation Kit: Each roll includes TEK self-drilling screws and a driver for quick and secure attachment to equipment.

- » Mesh Size: 2mm x 2mm
- » Roll Length: 4' wide by 100' long
- » Part #: SAFETYNET4X100

The end user takes full responsibility to ensure equipment or materials purchased are set up and installed in accordance with the Occupational Health and Safety (OH&S) Regulations, Acts, Code or Legislation for the jurisdiction in which these materials or equipment will be used. More information can be provided upon request.
