

## ***Urethane Beater Return Roll***

**Engineered for Extended Service Life:** Manufactured with high-performance materials, this roller delivers exceptional durability and consistent reliability in demanding conditions.

**Optimized Cleaning Performance:** The precision-molded urethane beater design ensures efficient removal of debris, buildup, and fines, minimizing system contamination.

**Advanced Solution for Carry Back Control:** Effectively eliminates material carry back with a proven design that enhances conveyor cleanliness and operational efficiency.

**Seamless Integration with Standard Systems:** Designed for direct compatibility with industry-standard brackets, enabling quick, trouble-free installation and reduced downtime.

**Cleated Belt Safe, Maintenance-Friendly:** Specifically engineered to protect cleated belts while maximizing cleaning efficiency, ensuring long-term belt integrity and system safety.
